Web Developer
Available from January 2025

Qualified in full stack web development. Seeking an opportunity (internship or junior position) outside France, in full stack or back end roles. Experienced in ReactJS/Node.js team projects and currently completing an internship using Python. Strong learning, analytical, and adaptability skills developed through my experience as a legal counsel. Fluent in French, proficient in English, and eager to improve my Spanish.

Key skills

- JavaScript / TypeScript
- ReactJS
- Node.js / Express
- HTML / CSS
- SQL / MySQL
- Python

- Git / GitHub
- Agile Project management (Scrum)
- CI/CD Development
- API REST
- Tests (Jest, Supertest)
- UI/UX design / Figma

- GDPR (French certificate)
- Cybersecurity
- Research and problem solving
- Analysis of complex technical documentation
- Adapting to client needs

French (native), English (full professional proficiency), Spanish (elementary proficiency)

Projects

Projects available on GitHub, including "Street Art Hunter", a full stack ReactJS/Node.js web application
Interactive map to discover nearby street art pieces, game and account management (user and administrator)
- Team: 4 web developers - Scrum Project management
- Duration: 3 months (2 months as a team alongside coursework, 1 month as an individual)
- Main accomplishments:
  - Developed the majority of the user interfaces using ReactJS, applying accessibility principles
  - Implemented a MySQL database and 17 out of 22 CRUD operations within a Node.js REST API
  - Found solutions for debugging authentication by managing the use of JWT tokens stored in localStorage
  - Created unit tests (Jest and Supertest) and secured client/server (middlewares, protected routes, etc.)

Education

2024 **Vocational Certification in Full stack Web Development (Titre RNCP) - Wild Code School, France**
